EDUCATION

Pennsylvania State University

Aug 2025 - Oct 2029

BS Computer Science - 3.74 GPA

- Major in Computer Science; Deans List in all semesters

SKILLS AND EXPERTISE

- **Technical:** Python, Java, JavaScript, HTML, C, Data Structures & Algorithms, Machine Learning, NLP
- **Soft Skills:** Leadership, Communication, Diplomacy, Result Orientation, Creativity, Debate

KEY ACHIEVEMENTS

- Winner of Summer Hackathon 2026 and Hoobit Hacks 2026 for building *CriShirts*, an AI fashion platform for design generation, virtual try-ons, and personalized styling using YouCam APIs, and *SETMIND*, an AI DJ co-pilot with crowd analysis, track recommendations, and automated transitions using React, Node.js, Web Audio API, and Gemini.
- Received “Most Outstanding Delegate” Award at AYIMUN Kuala Lumpur (UNESCO Committee, representing Angola) for leading a 70-member bloc on digital education reform.
- Personal recognition from the Hon’ble President of India at the Rashtrapati Bhavan for my social entrepreneurship venture, The Arogi Foundation.
- Recognized as an AI Scholar by Inspirit AI, awarded “Best Presenter” for exceptional performance in Artificial Intelligence advancements through research projects.
- Certified by Trinity College London (Communication Skills Grades 3 and 5, Distinction) for communication skills.

PROFESSIONAL EXPERIENCE

President - AviationAI (Penn State Student Organization)

Dec 2025 - Present

- Leading a student-run AI initiative affiliated with State College Regional Airport, developing AI- and IoT-driven solutions for airport operations and security systems.

Research Lead, Supervised by Prof. Mahfuza Farooque

Jan 2026 - Present

- Developed the Quantum Target Distillation architecture, combining a 4–8–1 neural teacher, a 3-qubit RY/CZ quantum refinement circuit, and a logistic-regression student to rank rare aviation failures across 256 simulated encounter states; submitted the work to IEEE ICTAI 2026.

Vice President - Omega Chi Sigma (STEM Business Frat)

Feb 2026 - Present

- Advanced Omega Chi Sigma’s engagement with the Smeal Business Council and secured Happy Valley LaunchBox as a collaborator, while coordinating speakers from AWS and BNY.
- Conceptualized a fundraising dinner for THON by developing partnerships with local businesses.

Quantum Intern, CloudAngles

May 2026 - July 2027

- Worked on the quantum team by developing a flood prediction system using Quandela’s MerLin QML framework and designing an optimized photonic circuit with phase shifters and beam splitters.

Founder & Director, The Arogi Foundation

Apr 2023 - Present

- Established and expanded an NGO dedicated to improving the lives of orphans through birthday celebrations, capacity building, and career guidance. Led 60+ volunteers and executed 150+ projects, raising over \$5000. Recognized by the Hon’ble President of India and affiliated with the United Nations SDGs and Football for the Goals initiatives.
- Led a large-scale MUN (Arogi MUN’25) at BGS, Bengaluru, managing 100+ delegates, 8+ schools, and 50+ volunteers. Raised \$2000+, secured partnerships, and assembled a distinguished Executive Board.

RESEARCH AND PROJECTS

AI + Career Counseling Project (GuideBot)

- Developed an AI chatbot using NLP and machine learning to provide personalized career guidance for underrepresented students. Mentored by Stanford and Brown University researchers. Demonstrated practical impact through pilot testing.

Research on AI for Underrepresented Youth

- Ongoing study involving 150+ students to analyze the accessibility and effectiveness of AI-driven counseling systems. Preparing for publication under mentorship from Stanford.
